

MONARFLEX® MultiCover

- super strong & exceptional performance

MONARFLEX® MultiCover is an outstanding reinforced tarpaulin. Due to the very high quality it provides maximum safety for valuable assets throughout many years. MONARFLEX® MultiCover does not deteriorate when exposed to sunlight and is stable at high as well as low temperatures. This makes it suitable for extreme weather conditions and for free-standing projects. The unique soft rubber fixing eyelets secure flexibility and leaves protected assets without damage.

6 good reasons for choosing MONARFLEX® MultiCover:

1. Top quality tarpaulin - reliable safety for protected assets
2. Long lifetime - can be re-used year after year
3. Trustworthy in rough conditions
4. Exceptional strong fixing eyelet which do not damage protected assets
5. Easy to apply
6. Environmentally friendly

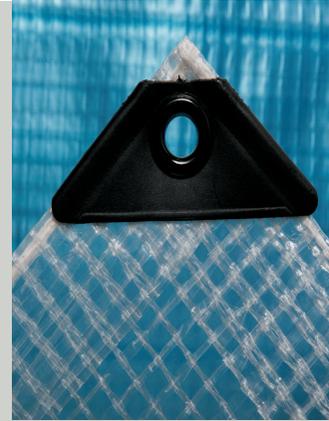

Monartarp

- durable & high performance

Monartarp is a light and flexible reinforced tarpaulin. The reinforcement add strength to the tarpaulin making it suitable for a medium protection period. Monartarp is UV-resistant and does not crack when exposed to sunlight. Monartarp is recommended for normal weather conditions and for protection of assets which to some extent are surrounded by other objects. The carbonated fixing eyelets make it very easy and quick to fasten.

6 good reasons for choosing Monartarp:

1. Durable tarpaulin - reliable safety for protected assets
2. Medium lifetime - no need to be replaced continually
3. Trustworthy in average conditions
4. Easy, quick and firm fastening
5. Easy to work with
6. Does not break in sunlight

Ecotec

- cost effective tarpaulin

Ecotec is an extremely light, economical woven tarpaulin ideally for temporary purposes. The lightness of the product makes it very simple to apply and transport. Ecotec is recommended for mild weather conditions and for protection of assets which are surrounded by other objects. The aluminium fixing eyelets makes it incredibly straightforward and quick to fasten.

5 good reasons for choosing Ecotec:

1. Light tarpaulin - cost effective protection
2. Temporary lifetime - throw away after use
3. Trustworthy in mild conditions
4. Easy, quick and firm fastening
5. Easy to apply and transport

MONARFLEX® Accessories

- ensuring the best solution

Anchor & Strap

A two piece flexible fixing accessory consisting of a piercing anchor which together with the strong oval rubber strap ensure an exceptionally strong and flexible fixation.

Flexitie

The standard versatile and flexible fixing product.

T-Clamp

A unique, two piece, fixing accessory used to join two tarpaulins together through the overlapping eyelets. The T-Clamp has limited resistance against wind-load.

Loose fixing eyelets

The triangular eyelet consists of two pieces, which are placed on each side of the sheeting and then screwed together with three screws. The accessory provide the user to position extra eyelets into the sheeting if, when and where it is needed. Please note that the strength is not comparable to the laminated eyelets.

Tape

A durable clear PVC-tape used to repair damages in the sheeting. Can also be used to secure overlaps in order to avoid wind getting behind the sheeting. The tape is flame retardant and stabilised against UV degradation.

Service temp: 0°C to 70°C

Application temp: 5°C to 40°C

Monarflex product range

- protection for all purposes

	MONARFLEX® MultiCover	Monartarp	Ecotec
Sizes available	4x3m, 4x4m, 4x5m, 4x6m, 4x8m, 4x10m, 4x12m, 6x8m, 6x10m, 6x12m, 4x3/30m, 4x4/40m, 4x5/50m	4x3m 4x6m, 4x8m, 6x10m	2x3m 4x5m, 6x8m
